Notice for Training Partners

Sub: Notification for SDMS batch Assessments for STT PMKVY (2016-2020) CSCM batches

Dear Training Partners,

As you are aware that the Pradhan Mantri Kaushal Vikas Yojana (PMKVY 2016-2020) scheme will come to an end soon. We acknowledge the contribution made by our training partners towards achievement of timely certifications under the scheme. However, upon review of the assessment batch pendency on SDMS for PMKVY (2016-2020) STT - Centrally Sponsored Centrally Managed (CSCM) component, it has been observed that some old pendency exists at various stages in the assessment process for few Training Partners / Training Centers from 2016 onwards.

In view of the above, all training partners and training centers operational under the scheme are hereby requested to note that:

- All the batches with assessment between the **period 2016- Dec 2019** which have lapsed and have not been conducted (as communicated by SSC) due to miscellaneous reasons at training partner / center, shall be cancelled in system. All these batches would not be applicable for conducting the assessment.
- **As per the PMKVY re-assessment process, the re-assessment of the batch needs to be completed** within 90 days of the previous SSC approval of results. All the re-assessment batches **with SSC result approval date before 19th Dec 2019** which have crossed the threshold of 90 days and are pending either at the TC level to apply for re-assessment or at SSC's end for the conduct of assessment shall not be considered valid for any re-assessment cycle as per the scheme advisory.

This is for information to all & issued with the approval of the competent authority

PMKVY, NSDC
